

CISCO VP joins as the CEO of Saviance Technologies

Kaushik Bellani to lead Global sales & business operations for the company

New Delhi, April 19, 2011: Saviance Technologies, an IT Consultancy and Cloud Software Solutions company today announced the appointment of **Kaushik Bellani** as the CEO of Saviance Technologies, with effect from April 11, 2011. With over 18 years of vast industry experience, Kaushik will be responsible for spearheading the entire business operations for Saviance in APAC, UK and the US region. In his additional capacity Kaushik will also be responsible for the global sales network for Saviance Technologies.

Mr. Rohit Mahajan, Founder & MD, Saviance Technologies said, “I am delighted to have Kaushik joining our strong team. He is a great leader and brings incredible experiences across the full spectrum of IT. His leadership and experiences will be very valuable for our customers as they streamline their applications and take advantage of the incredible benefits of the virtual era.”

Kaushik will be based out of the India Headquarters in Gurgaon, and will be responsible for expanding Saviance’s operations globally, maintaining customer relationships and establishing new avenues for growth.

Speaking on his new responsibility, Mr. Kaushik Bellani said, “I am very happy and excited to join Saviance Technologies and help lead the company to the next level of growth and leadership. We would expand our existing partner ecosystem globally and leverage the same to provide world class software solutions, IT consulting and outsourcing services to our clients to enable them to win and grow in APAC, US and UK. The next decade will see tremendous opportunity for Indian IT Solution providers to increase our scale and presence globally and backed by a robust domestic market, I am confident that Saviance Technologies is at the right place at the right time. I look forward to leveraging my past experiences of creating and leading “start-ups and building sustainable businesses” to enhancing the company’s tremendous global delivery model to make Saviance Technologies a leading IT consulting provider in India, APAC, UK & US. “

Kaushik joins in from Cisco Systems India, where he worked for more than 6 years and worked in various capacities, the last one being the Vice President North & East for their Transformation & Infrastructure Business vertical. Mr. Bellani had joined Cisco India in 2005 as their National Manager Sales – SMB India and set up the Small & Medium Business vertical which later grew into the Commercial Business vertical for the networking infrastructure giant. Mr. Bellani managed the Commercial Vertical for two years

as the Vice President for North & East India and later led the Sales and Business Operations for all verticals in the North & East region.

Before joining CISCO Systems India, Kaushik in his nearly two decade long career in the Indian IT Industry has also worked with large IT organizations such as IBM, Hewlett Packard and Wipro Infotech managing varied portfolios like Business Development, Sales, Channel Sales, Product Marketing and Strategy & Operations. He has been closely associated with the SMB segment in the Indian IT Industry and also been instrumental in setting up of new business divisions and leading start up teams in his previous roles at Wipro Infotech, Hewlett Packard India and IBM India. He is a Mechanical Engineering graduate of The Sardar Patel University in Gujarat and is an MBA from the Institute of Management Technology, Ghaziabad.

About Saviance Technologies:

Saviance Technologies is an IT Services company established in the US in 1999, providing a host of services including web & mobile applications, IT consulting and Strategic IT Staffing solutions. Team Saviance strives to deliver the best value to our clients through a combination of highly experienced workforce, defined processes, state-of-art technologies and client management solutions. Saviance leverages its global presence in the US, UK and Australia to provide holistic, multi -service delivery in key industry verticals including Education, Manufacturing, Telecom, BFSI, Consumer services, Energy & Utility and Healthcare. Saviance Technologies key expertise lies in Enterprise applications, Technology & Infrastructure, Data warehousing, Quality assurance & testing and Knowledge Process Outsourcing.

Saviance recently launched 'Viburnix', a first-of-its-kind, comprehensive solution which caters to the specific 'Alumni' requirements' of corporate, universities, colleges, schools and other educational institutions. Viburnix provides a unified communication and a collaborative platform to create multiple points of adhesion throughout an institution. This product enables institutions in brand building, social and professional collaboration, event management, real time communication, knowledge repository and providing career opportunities.

The strong workforce of 450 employees and consultants spread across the globe helps optimize the delivery using Build-Operate-Transfer model offering a combination of management, technical and implementation service that transitions clients seamlessly and provides them a well-managed offshore strategy.

We are an ISO 9001:2008 certifies company.
