

ITES Services

ITES Staffing Services:

The growth of IT enabled Services (ITeS) has opened windows for job opportunities, service offerings and outsourcing in major economies -the key beneficiaries being – India and China. Propelled by the increase in outsourcing of web applications and product development and by a growing number of clients, Saviance Technologies is well positioned in the ITES market.

Our spectrum of services includes:

- Customer Interaction services -including call center facilities with adequate telecom infrastructure, trained consultants, access to requisite databases, Internet and other online information infrastructure to provide information and support to customers 24x7.
- Back office operations -data entry, data conversion including finance and accounting and HR services.
- Transcription/Translation services
- Content development/animation/engineering/design and GIS
- Other services including remote education, data search, market research, network consultancy and management as IT enabled services.

To keep growth humming, we have invested aggressively in processes and staff adding a qualified development team in India. In the form of skilled staff and a large English speaking workforce, Saviance Technologies is a strong choice for customers seeking outsourced services.

Our ISO 9001 certification validates our highly process-driven enterprise which aims at delivering consistent value to our clients.

Staffing: Attrition in the IT and ITeS sectors has a ripple effect in the industry. To counter this, Saviance Technologies has adopted HR strategies that catalyze the talent pool by providing reliable forecasts for skill demand and ensuring a steady supply of candidates to clients.

We have become a key hub for staffing for our clients. We have the aptitude to scout talent by industry, vertical, skill set, experience and location. With our legacy of service and performance, we work closely with our clients to deliver timely results that make their businesses stronger.
